

REOPENING OF MUNICIPAL OFFICES

As of June 29, the municipal office will once again be accessible to the public with significant restrictions to ensure the safety of municipal employees and citizens on the risks of contracting COVID-19.

We would like to thank the citizens for their cooperation in containing the pandemic. You respected the rules for contact with the municipal office by opting for telephone and/or email communications. We encourage you to continue these methods of communication given the gradual deconfinement. Please contact the municipal office to make an appointment before arriving and avoid several citizens being present at the same time in the reception area of the municipality.

Please note that you can contact the municipal office at 819-826-3546 x 0 or email: administration@cleveland.ca during office hours.

If your needs are for road services or road emergencies in the municipality, you can contact this service by calling 819-826-3546 x113.

VALLEY ROAD WORK

Following the paving on Valley Road, we received a recommendation from our engineering firm to properly correct a badly damaged area. Over a length of 320 metres near the intersections of Lockwood Road and Barr Road, we must proceed with the removal of the existing structure (foundation) and replace it with one that will meet the standards (granular materials and asphalt).

To do this, your council has submitted a grant application to the Quebec Ministry of Transportation's RIRL program. We hope to receive a positive response quickly so that we can carry out the work before the winter period.

RESIDENTIAL POOLS : SAFETY REMINDER

Due to the exceptional circumstances associated with the COVID-19 pandemic, there has been a sharp increase in residential pool sales for the upcoming summer season. We remind you that a municipal permit is required to build, install or replace a swimming pool, or to erect a building that provides access to it or prevents access. Please contact the municipality at 819-826-3546 ext. 0 for a pool permit.

The municipality would like to remind you that vigilance around residential swimming pools is the most effective way to save lives. We intend to continue to raise awareness throughout the summer.

For more information on safety measures needed during the installation of a residential pool, please visit www.quebec.ca/piscinesresidentielles.

For information on how to avoid drownings visit www.quebec.ca/habitation-et-logement/piscines-et-spas/
