Le Jaseur

March 2020

First of all, please note that the municipal offices are still closed, as mentioned in the last edition of the Jaseur, and will remain closed until further notice.

As you know, the COVID-19 pandemic is an exceptional situation that requires exceptional measures to curb its spread and to protect the population.

In order to protect the population, indoor and outdoor gatherings have been banned by the Quebec government since March 20th.

Those seeking information on the COVID-19 situation in Quebec are invited to visit the [Québec.ca/coronavirus](http://Quebec.ca/coronavirus) website. Anyone who thinks they have COVID-19 or would like information is asked to call **1-877-644-4545**.

The Government of Quebec has drawn up a list of measures deemed a priority to ensure the health of all citizens in Quebec municipalities. The measures chosen ensure that municipalities will continue to exercise their responsibilities by adapting certain rules. Municipal elected officials must comply with applicable laws, decrees, directives and ordinances.

However, we remain attentive to the evolution of government guidelines and recommendations. We also appreciate everyone's cooperation during this crisis.
